PRATHAM BRIJENDRA DUBEY

Technical Trainer | Cloud Engineer | AWS Certified Solutions Architect – Associate

Mumbai, Maharashtra | +91 9579832094 | prathamdubey03@gmail.com

PROFESSIONAL SUMMARY

AWS Certified Solutions Architect – Associate and Technical Trainer at JetKing, Dadar, with two years of technical training experience across web development, AWS, Azure, Linux, networking and hardware, combined with hands-on cloud engineering skills. Has trained 3,000+ students in AI, web development, web design and AWS cloud through practical, lab-driven sessions and certification exam coaching. Experienced in designing and deploying secure, scalable infrastructure on AWS using EC2, S3, VPC, IAM, RDS and Lambda.

CORE SKILLS

- **AWS:** EC2, S3, VPC, IAM, RDS, Lambda, CloudWatch, SNS, CodeCommit, CodeBuild, CodeDeploy; Well-Architected design, cost optimization
- **Microsoft Azure:** Azure fundamentals, Virtual Machines, Azure SQL Database
- **Linux & Networking:** Linux administration, networking basics, TCP/IP, subnetting, routing, VPC networking
- **Hardware:** PC assembly, OS installation (Windows, Linux), hardware fundamentals and troubleshooting
- **AI:** Practical use of generative AI tools, AI awareness and literacy training
- **Scripting & Web:** Python, Bash, HTML, CSS, JavaScript
- **Tools:** Git, GitHub
- **Training:** Hands-on lab design, live demonstrations, certification exam coaching, career readiness coaching, batch management

WORK EXPERIENCE

Technical Trainer | **JetKing, Dadar (Mumbai)** — **Aug 2026 – Present**

- Deliver hands-on training in core AWS services (EC2, S3, VPC, IAM, RDS), including live lab demonstrations such as building VPCs with public/private subnets and Internet Gateways.
- Teach Microsoft Azure fundamentals with practical labs, including provisioning and configuring Azure SQL Database.
- Teach computer hardware basics with hands-on PC assembly and operating system installation (Windows and Linux).
- Train students in networking basics and Linux administration as a foundation for cloud careers.
- Prepare students for AWS and Azure certification exams through exam-focused sessions, practice questions and doubt-solving.
- Manage a dedicated student batch end to end, tracking attendance and progress to keep learners on schedule.

Tech Trainer | **Magic Bus India Foundation** — **Oct 2024 – Aug 2026**

- Delivered hands-on technical training in web designing and development (HTML, CSS, JavaScript), AWS, Microsoft Azure and Linux to batches of students preparing for IT careers.
- Delivered AWS training content for **Accenture** CSR initiatives in partnership with Magic Bus.
- Worked with the **IBM SkillsBuild** team to run AI training across multiple colleges, teaching practical use of AI and how emerging AI tools work.
- Designed practical labs and projects, and mentored students through assessments and doubt-solving to build job-ready skills.
- Coached students on career readiness: finding and applying for jobs, resume building, portfolio creation and interview preparation.

Cloud Computing Intern Trainer | **Magic Bus India Foundation**

- Led cloud computing sessions and hands-on AWS labs for students and staff, configuring environments for practice with **EC2, S3, RDS, Lambda, IAM and VPC**.

Instructor | **RJ College – Computer Literacy Program**

- Taught basic computing skills: Microsoft Word, Excel (incl. advanced functions) and Google Forms.

CERTIFICATIONS

- **AWS Certified Solutions Architect – Associate** – Amazon Web Services (2026)
- **AWS Certified Cloud Practitioner – Foundational** – Amazon Web Services
- **AWS re/Start Graduate** – Amazon Web Services & Magic Bus India Foundation

PROJECTS

- **Static Website Deployment & Monitoring on AWS:** EC2 + S3 hosting with CloudWatch and SNS alerting.
- **Automated CI/CD Pipeline for Website Deployment:** CodeCommit, CodeBuild and CodeDeploy pipeline.

TRAINING & INTERNSHIP

AWS re/Start Program | **Magic Bus India Foundation**

- Intensive, hands-on program on AWS cloud technologies; assisted in deploying and managing infrastructure using EC2, S3 and RDS.
- Developed automation scripts with AWS Lambda to streamline data processing tasks, reducing processing time by 25%.
- Implemented IAM policies for secure access and used CloudWatch to identify and resolve performance bottlenecks.
- Conducted cost analysis of AWS resources and proposed optimizations, achieving a 15% reduction in monthly expenses.
